Mobile Digital library van makes use of satellite connection for connecting to Internet.

User can make selection of books from various available options.

Once the book is selected it can be printed using printer fitted inside the van. After printing the book is bound using scorer, cutter and binding machine.

All this process takes very little time. The power connections and back-up is restored using gensets available inside the van.

The van will go to remote places demonstrating the technological aspects of use of digital library and inculcating reading habits.

THE ADVENTURES OF TOM SAWYER CHAPTER I.

"TOM!"
No answer.
"TOM!"
No answer.
"What's gone with that boy, I wonder? You TOM!"
No answer.

The old lady pulled her spectacles down and looked over them about the room; then she put them up and looked out under them. She seldom or never looked through a pair of state pair, the pride of her heart;—small pair, the pride of her heart;—she could have seen through a pair of stove lids just as well. She looked perplexed for a moment, and then she looked at the furniture to hear:

TOM AT HOME.
then said, not fiercely, but still loud enough for the furniture to hear:

The adventures of

Re: National Security Letter Dated November 26, 2007 to Internet Archive

Dear Special Agent [REDACTED]

This letter is in response to the National Security Letter ("NSL") you served upon the Internet Archive through its counsel, the Electronic Frontier Foundation ("EFF"), on November 26, 2007.

As explained below, the Archive is voluntarily providing responsive public information, but is not providing the non-public information requested by the NSL because the statutes governing the NSL, 18 U.S.C. §§ 2709 and 3511, are unconstitutional and because the Archive is not subject to the NSL statute under either 18 U.S.C. § 2709(a) or under 18 U.S.C. § 2709(f).

Japan's devastating earthquake in pictures

Houses are swept up by a tsunami near Sendai Airport after an earthquake on March 11, 2011. (Mainichi)
[Click photo for more.](#)

TOKYO (AP) -- A powerful tsunami spawned by the largest earthquake in Japan's history slammed the eastern coast Friday, sweeping away boats, cars, homes and people as widespread fires burned out of control. A local news report said at least 15 people were killed.

The magnitude 8.9 offshore quake was followed by at least 19 aftershocks, most of them of more than magnitude 6.0. Dozens of cities and villages along the 2,100-kilometer

stretch of the country's eastern shore were shaken by violent tremors that reached as far away as Tokyo, hundreds of kilometers from the epicenter in the sea off the northeastern coast.
